STAT 590
Independent Study
Fall 2019

General Description: Independent study for graduate level research topics in statistics. It provides credit for independent study in a selected area of statistical specialization. It is intended for directed reading, for conducting independent research, and documentation of conclusions and application of practical internships. Repeatable for credit.

Instructor: Jeffrey S. Morris

Office: Perelman School of Medicine at the University of Pennsylvania

Email: jeffrey.morris@pennmedicine.upenn.edu

Office Hours: by appointment

Course Objectives and Learning Outcomes

Independent investigation of a specific topic in statistics. Students will research under the direction of a STAT faculty member. Students should consult with the instructor regarding the research topic.

Students should work out a schedule and location to meet periodically with the instructor.

Grade Policy: Students should consult with their advisor regarding grading.

Rice Honor Code: In this course, all students will be held to the standards of the Rice Honor Code, a code that you pledged to honor when you matriculated at this institution. If you are unfamiliar with the details of this code and how it is administered, you should consult the Honor System Handbook at http://honor.rice.edu/honor-system-handbook/. This handbook outlines the University's expectations for the integrity of your academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process.

Syllabus Change Policy

This syllabus is only a guide for the course and is subject to change with advanced notice.
